# Advice on how to be smart with the investments:

- 
- The customers on the main market\* who purchased one or both products mostly arrived on the blog from Reddit or through SEO. \* *country\_2, country\_4, country\_5, country\_7*  
Check a period one or two months how to change the numbers after increasing the budget for Reddit and SEO on the main markets..
  - It is recommended to reduce the budget for Adwords advertisement and keep it exclusively on the market *country\_7, country\_2* and maybe *country\_6* and wisely targeted to the topics about North America and South America.
  - It is recommended to increase the budget for Reddit and SEO on the underperforming markets such as *country\_6, country\_3, country\_8, country\_1* to catch more visitors and convert them to customer.
  - The following topic targeted advertising sources work well and generate more returning visiting than one time readers: Reddit: Asia, SEO: Asia, SEO: Europe, SEO: North America, SEO: South America
